The programme schedule

The regular programme schedule is available on the Bridge FM website <http://bridgefm.wales/schedule>

The average number of hours of automated programming within weekday daytimes and within daytimes on Saturdays and Sundays

At Bridge FM we make full use of broadcast playout technology in order to deliver our programmes and free up presentation staff to produce content.

Programming is automated overnight from

Monday - Friday	0000 to 0600 and 1900 to 2400
Saturday	0000 to 0800 and 1800 to 2400
Sunday	0000 to 0800 and 1600 to 2400

At other times programming may be left in automation for brief periods to allow presenters to undertake training and other duties (whilst they remain on site at the broadcast centre). Typically, daytime programming is live or recorded immediately prior to transmission (in the case of split broadcasting)

The amount of local programming per day produced by the station

With the exception of the Hit 40 UK Chart (Sun 1600-1900) and the Great Destination Travel Show (Mon 2100-2200) all programming on Bridge FM is delivered locally from one of Nation Broadcasting's two broadcast centres in the Ofcom West Wales approved area.

The broadcast centres are located within the licensed area of Pembrokeshire and Bridgend and Bridge FM is permitted to locate in either of these areas (and some others).

Shared programming and content

Bridge FM is permitted to share all programming and content with 4 other local radios stations operated by Nation Broadcasting provided it meets fulfils its character of service obligations within the format.

As a starting point all programming is shared with other stations in the group however some stations 'opt out' from the local network to provide specific programming.

Within shared programming a significant amount of programming is 'split' for example local news, regional rugby bulletins, local events, and some presentation links, giving a different listener experience for each station.

The Rugby Nation show (Wednesday 7pm-8pm) and Football Nation show is shared across the Nation Radio group including Nation Radio.

As stated above, although the programming is shared under Ofcom's definition; there is a considerable amount of market specific programming broadcast during shared programming. This includes:-

- Local news specific to the county
- Local events specific to the county
- Various programming links and interviews which are station specific
- Branding and advertising specific to the county

We also retain the ability for stations to standalone should there be an editorial reason to do so (for example a station specific event broadcast – such as a highlights show following a station awards event, for example).
